

## Sample of Conservation Biology and Sustainable Development M.S. Theses and Project Papers

### M.S. Thesis Titles

- Evaluating a Capacity-Building Program in Conservation Biology for Shuar and Awa Communities in Ecuador
- An Exploration of the Relationship of Art and Ecology in Interdisciplinary Education Including a Case Study of the Sitka Center For Art and Ecology
- Burning in Restoring the Structure and Composition of a Degraded Wisconsin Oak Savanna
- Action Research in Bolivia: Women, Natural Resource Management, and Community Dynamics in La Cueva, Tarija
- Conservation of Snakes: Environmental Enrichment; Habitat Conservation; and Societal Attitudes
- Habitat Status and Hunting Pressure on Migratory Cranes in Pakistan and Assessment of Lake Ab-I-Estada in Afghanistan with Proposed Conservation Plans for Selected Wetlands
- Environmental Education in the Mono Basin, California: Increasing Awareness and Protection through Participation
- A Study of the Use of Magnetite to Trace Sediment Movement in Conservation Buffers Designed to Protect and Enhance Surface Water Quality
- Integrating Biological Monitoring and Social Perspectives for the Assessment of the Air Quality in the Huascarán National Park-Peru
- Water Economics and Environmental Justice in the Ayuquila River, Jalisco, Mexico
- Conservation Biology and Sustainable Development in the Context of Wisconsin's Comprehensive Planning: A Study of Four Door County Plans
- Red Panda and Conservation: Political Ecology, Tenure, Livestock and Hunting in High Altitude Forests of Nepal
- Partners in Preservation: Land Trusts and the Future of Conservation
- Primate to Primate: Educating the public about nonhuman primates and their conservation issues
- An Investigation of a Self-Certification Program to determine how Business Benefits Incent Participation in Environmental Change
- The Ecological Needs and Economic Benefits of Bald Eagles in Sauk Prairie, Wisconsin
- Community-based ecological monitoring within three wildlife sanctuaries: Taita-Taveta, Kenya
- Measures of Conservation Success: A case study of Biodiversity in the Superior Mixed Forest
- Avian Communities and their Relation to Arthropods and Vegetation Structure in Cacao and Banana Agroforestry Systems of Talamanca, Costa Rica
- Understanding the Characteristics of Black Bear-human interactions in Northern Wisconsin

### Project Paper Titles

- Chesapeake Bay-Land Tenure: Private versus Public Land's Effect on Conservation
- Habitat Utilization by Dispersing Gray Wolves in Wisconsin
- The Izoceno People and Conservation in the Gran Chaco of Bolivia
- Behind the Scenes of the Wisconsin State Natural Areas Program: My Experience with Snow Bottom
- Remote Sensing of the Invasive Reed Canary Grass (*Phalaris arundinacea* L.) in the Wetlands of Southern Wisconsin
- The State of the Foodshed: Agriculture, the Environment and Sustainability in Dane County
- Environmental Stewardship in the Presbyterian Church (U.S.A.): Translating Denominational Goals into Congregational and Personal Action
- Biodiversity in the Mass Media
- Herpetiles in Mitigated and Natural Wetlands
- Addressing Governance of Protected Areas at the Vth World Parks Congress: An Internship with the IUCN Theme Working Group on Indigenous and Local Communities, Equity and Protected Areas
- Mapping the Landscapes of Opportunity: Report on an Internship with the Gathering Waters Conservancy
- Ecosystem Management: Policy and Implementation in the USDA Forest Service
