Eco-Living: Sustainability in Residence Halls
1 credit
Spring 2016
Instructors: Cal Bergman (with Cathy Middlecamp)
Peer Mentors: Trina La Susa & Kendra Trost

In the context of the southeast and lakeshore residence hall communities, this course introduces daily practices that promote sustainability. Students first will explore what is feasible in regards to improving practices that connect to recycling, energy use, water use and food in residence halls. Next they will develop a plan for a project, and finally they will have the opportunity to implement this project.

Students who currently are enrolled in the Sustainability Certificate will serve as Peer Mentors. Faculty, staff and student guest speakers will share expertise on topics of sustainability.

Two sections are offered that will meet both jointly and separately.

- Environmental Studies 402
  - Section 009 – Class Number 45658
  - Southeast Residents
  - Wednesdays 5:30-6:30 pm
  - Location TBD

- Environmental Studies 402
  - Section 010 – Class Number 45659
  - Lakeshore Residents
  - Wednesdays 5:30-6:30 pm
  - Location TBD

Environmental Studies 402 may be counted for one credit of the Sustainability Certificate and can be taken only once.

Instructor consent required to enroll. Please express your interest to enroll in this course here: https://uwmadison.co1.qualtrics.com/SE/?SID=SV_6nazMcSTvSoVMih
